I am working with a mature VB6 program which utilizes the USB to CAN Compact hardware. Most recently, program has been working as expected using vci_3_5_2_4268 drivers plus vci_2_20_855_0 wrapper. I'm attempting to update to vci-4_0_848_0 drivers and use vci2onvci4_2_30_72_0 wrapper. After driver installs, canAnalyser3 Mini program runs correctly. My VB program properly connects with the USB ...
